Annotated List of Indexes to Canadian Provincial Geological Publications (including the Yukon and Northwest Territories)

Compiled by

Douglas E. Tedford, Geological Survey of Canada Library, Ottawa

Julia H. Triplehorn Geophysical Institute Library
University of Alaska, Fairbanks

Monique L. Brûlé
School of Library and Information Science,
University of Western Ontario, London

April
1989

INTRODUCTION

This list was conceived and compiled in response to a demand in the earth sciences community, particularly from librarians and researchers, to have a source of control of the geological literature produced by Canadian provincial agencies. It can be used as a checklist for coverage of provincial materials and as a reference source for locating publications of a given era.

We have added annotations for each entry to aid users in deciding upon the usefulness of a particular index. The call numbers of the Geological Survey of Canada Library have been added to each entry to permit our own researchers to be able to find the required indexes on our shelves.

Every effort was made to ensure the completeness of the list, but as sometimes happens, some of the pertinent literature sources may have been missed. We welcome any comments and suggested additions which can be incorporated in a later edition and we nope that this index will be a useful and timely reference source for librarians and researchers alike.

We would like to thank Annette Bourgeois, Chief Librarian of this library for her enthusiastic support of this project and Brent Scollie, Chief Librarian of the E.M.R. Headquarters Library, who initially inspired this publication. Thanks should also be given to the libraries of the Department of Indian and Northern Affairs for providing us with information and indexes which we were lacking.

INTRODUCTION

Cette liste a été conçue et compilée en réponse à une demande émise par la communauté impliquée dans l'étude des sciences de la terre, en particulier par les bibliothécaires et les chercheurs, afin d'avoir une source de contrôle sur la littérature produite par des agences provinciales canadiennes qui a trait à la géologie. Cette liste peut aussi servir comme liste de contrôle sur la portée des publications provinciales et comme source de référence pour localiser des publications d'une certaine époque.

Nous avons annoté chaque entrée afin d'aider l'usager dans sa décision sur l'utilité du document. La cote de la bibliothèque de la Commission géologique du Canada a été ajoutée à chaque entrée afin de permettre à nos usagers de retrouver le document en question dans notre collection.

Nous nous sommes efforcés de compiler une liste aussi complète que possible mais, comme cela se produit parfois, un oubli aurait pu s'y être glissé. Tout commentaire ou toute suggestion d'additions aptes à être incorporées dans une deuxième édition seront accueillis avec plaisir et nous souhaitons que cette source de référence s'avéréra à point et utile pour tous, bibliothécaires et chercheurs.

Nous aimerions remercier Annette Bourgeois, Bibliothécaire en chef de la bibliothèque de la Commission géologique du Canada, pour son enthousiasme et son support envers le projet, et Brent Scollie, Bibliothécaire en chef de la bibliothèque centrale du Ministère de l'énergie, mines et ressources, qui a eu l'inspiration pour cette publication. Nous remercions également les bibliothèques du Département des affaires indiennes et du nord pour nous avoir fourni certaines informations ou publications dont nous manquions.
